

**REMARKS**

Reconsideration of the application is requested in view of the modifications above and the remarks below. Applicants have amended the specification to place the application in condition for allowance or in better form for appeal. Allowance of all claims is acknowledged. The only issue remaining is certain trademark matters.

**OBJECTIONS: TRADEMARK MATTERS**

Per the previous Office Action, Applicants had modified the specification to address the trademark matters. However, the Advisory Action indicated that the objection was maintained because "[t]rademarks should be followed by the generic terminology."

Applicants have made the modifications above. The format used in the modifications above are expressly mentioned in the MPEP ("Language such as **'the product X (a descriptive name) sold under the trademark Y' is permissible.**"). The Applicants thank the Examiner for his assistance in this manner.
